Features

- 17-inch high resolution touchscreen
- JETimage Pro software
- Scanner stand with special heads-up display
- PC platform for CPU, keyboard, mouse

Contex **SCAN**station

COPY > SCAN > PRINT > NETWORK

Contex SCANStation is designed to connect with nearly all wide format printers to provide instant colorful results. With the added power of Contex^{NET} Technology, the SCANStation can easily send scanned images to any PC on the network for quick, precise document archival. Operating on the powerful scanning controller, JETimage^{NET} touch-enabled software provides beautiful, color-calibrated copies in just a few simple steps. The controller also functions as a WIDEsystem^{NET} Scan Server – sharing the scanner with any other PC on the network running Contex software. Designed for Contex HD3600 and HD4200 Scanners.
