

Exceptional Image Quality Ultra High Definition for Microfilm

ScanPro 3000[®]

Bringing Ultra High Definition to Microfilm

The ScanPro 3000 microfilm scanner features a 26 megapixel camera, nearly twice the optical resolution of any microfilm scanner, which provides customers with exceptional image quality never before seen in the micrographics industry. The optical resolution is over 500dpi on a letter page and saved files are both archival-quality and small in size.

With a single click, the on-screen magnifier lets you view text and image detail at up to 800%.

ScanPro[®] 3000

Bringing Ultra High Definition to Microfilm

The ScanPro microfilm scanners are chosen by universities, libraries, and corporations around the world for their ease of use, performance and value. The ScanPro microfilm scanners receive high praise for their cutting-edge design and the powerful software capabilities that have revolutionized the way patrons and researchers work with microfilm.

Easy to Use

The ScanPro 3000 software is an intuitive Windows[®] computer application with familiar icons and text labels that reduces the learning curve for both occasional and first time users. The customizable interface keeps the tool bar simple by allowing for the selection of just the controls needed for your application. To get started, just CLICK the Film Selection Wizard to automatically set up your scanner. Then use the interactive on-screen help menu, always at your fingertips, to provide details on how to use any button control.

Performance

Small and compact, the ScanPro 3000 fits almost anywhere and it is Library Quiet[™]. Our patented FOCUS-Lock technology keeps your microfilm image always in focus so you can complete look ups and research quickly and efficiently. And, the combination carriers, considered the best in the industry, are easy and fast to operate and make it possible to precisely position your film image on the view screen.

Value

The ScanPro 3000 keeps the same sleek and durable design as you have come to expect from the ScanPro series. It is designed and built to stand up to the rigors of public use by incorporating heavy gauge steel throughout for long term reliability. It is not unusual to find ScanPro scanners with over 1,000,000 scans and working just like new.

The ScanPro products have a proven track record of performance and reliability backed by factory trained and certified dealers.
