

ST Imaging ViewScan 5

Micro PC Option

Pictured: Back of NUC PC

Turn-Key Solution

ST Imaging is proud to offer a turn-key solution when replacing old microfilm reader/printers. The ViewScan 5 Microfilm Scanner can come with an optional low profile PC.

Work Directly From the Box!

The micro PC allows your ViewScan 5 to work direct from the box! No need to download software when your PC is preconfigured with Windows 11 and all your PerfectView features. Simply connect a monitor, keyboard, and mouse to the PC and you are ready to scan!

Smaller Footprint for a Cleaner and Efficient Workspace

The micro PC works as a desktop PC that doesn't occupy any desk space. The PC is small in size and can easily be set next to the scanner. The micro PC is a significant advantage in situations where space is limited or you want the micro-PC stored out of sight.

ST Imaging. The Clear Choice.
